

WM French Buyers Real Estate,

During my relocation to the St Louis area, I worked with Sandy Walbridge-Dolin. She found time in her busy schedule to work with me at the last minute during my orientation trip.

Sandy is professional, knowledgeable and efficient, but that is not what impressed me about her. From the time I made an offer on my home, she coordinated everything. She scheduled all the inspections and attended them all. I was not able to be there, but she was there on my behalf. She counseled me on every step of the process. When I was not able to be at the walk-through, she represented me there as well and then she arranged to have my house deep cleaned while I was moving my household from Arkansas to St Louis.

Moving is stressful and emotional. Sandy dealt with every issue, every unexpected bump in the road and she did much, much more than just show me home after home after home. She managed every step in the entire process and for that I am genuinely grateful.

Sandy goes far above and beyond what any realtor typically does. She is truly an amazing person and I would recommend her to anyone.

Sincerely,

Schnucks
